

Bercy 2 Shopping Centre

Bercy is a shopping centre and therefore, above all, has to be visible. It cannot fade into the urban background, but it needs to attract the attention on potential customers: a gleaming airship with the ramps of the motorway furled around it. The roof is made of 27.000 panels of perforated stainless steel, in 34 different sizes; under the roof we find the idea of the double skin to create an airspace that slows down the exchange of heat with the outside.

Dati Progetto

Design	1987
Construction	1987-1990
Site area	120.000 m2
Total floor area	Net floor area (excluding car parks): 47.000 m2
Height	25,20 m
Floors	4 +2 basements

Credits

Client	GRC
Architect	Renzo Piano Building Workshop
Consultants	Ove Arup & Partners, Otra, J. L. Sarf, OTH S.I. (structure and services); Veritas (fire prevention); Copibat (site co-ordination); M. Desvigne, C. Dalnoky (landscaping); Crighton Design Management (interiors).
